Subject: Microsoft Settlement

The purpose of this message is to let you know that I support an immediate settlement of the Microsoft case without any further delays and/or litigation. This issue has dragged out too long to the benefit of nobody except the lawyers and it needs to be closed as soon as possible. This is America-lets treat our innovative companies like Microsoft like we appreciate what they have done for our country.

Thank you,

Rodger D. Sorenson, 5370 W. Flying Circle, Tucson, AZ 85713.
